

Providing a lifeline of welfare and support to fishermen and their families

The Fishermen's Mission is a Christian charity that provides emergency and welfare assistance to active and retired commercial fishermen and their families through practical, spiritual and pastoral support. Every year we help thousands of clients, many in desperate circumstances.

The operational staff are supported by a small Head Office team comprising the Chief Executive (who is also the Chief Operating Officer) and the Director of Business Development, with administration provided directly by the Executive PA, Operations Manager and the Operations and Business team.

The Operations Administrator offers support to port staff in the main but will provide cover for other areas at peak times and as required.

About You

You will be able to undertake a wide range of tasks in differing situations, with a degree of personal responsibility and autonomy. It is important to be able to work both alone and as a member of the team.

In order for the Charity to work effectively, you may be required to assist with other areas of work and, therefore, you should be prepared to undertake other duties appropriate to the post, as delegated by your line manager.
